

# USATestprep Efficacy

***"A proven teachers' favorite since 1998, used by more and more districts nationwide."***

---

As a learning platform founded by teachers, for teachers, we understand how important it is to select **proven resources validated by third-parties**. The greatest third-party support we have is the overwhelmingly positive feedback we hear from our teachers and administrators. We also have **independent peer-reviewed studies supporting USATestprep's Tier 2 ESSA compliance**.

## Evidence-based Peer-reviewed Studies

Looking for factual evidence about how USATestprep positively impacts student growth, learning, and increased scores on testing? Third-party research shows that USATestprep meets ESSA criteria as a Tier 2 evidence-based intervention. **This means our platform qualifies for federal and state grant programs.**

## Product Efficacy Report: Relationship Between USATestprep Product Use and Student Performance

This product efficacy study investigated the relationship between the high use of USATestprep products at particular schools and the performance of the students at those schools on state assessments. The findings indicate that **high use of USATestprep products corresponds to high student performance on state assessments** in all twelve schools and across all subject areas. Comparison of 2018 and 2019 pass rates at USATP high-use schools suggests continued use of USATestprep products increases pass rates year over year.

## Teacher Satisfaction: A Product Efficacy Report

We studied teacher satisfaction of our product through two different surveys. The first survey, the Nationwide Education Survey, was conducted between December 2018 and March 2019. The second survey, the Annual Teacher Survey, was conducted in May 2019. **Over 90% of respondents were likely or extremely likely to recommend USATestprep.**

## 2019 National Survey Results

We surveyed more than 1,500 educators nationwide to understand how they are using -- and finding success with -- USATestprep. **More than 96% agreed that USATestprep improved their students' achievement and standards mastery.**

*"Our students made the highest on the EOC in our district with 95%. We used USATestprep every day!"*

*- S. Theiss, Texas*
